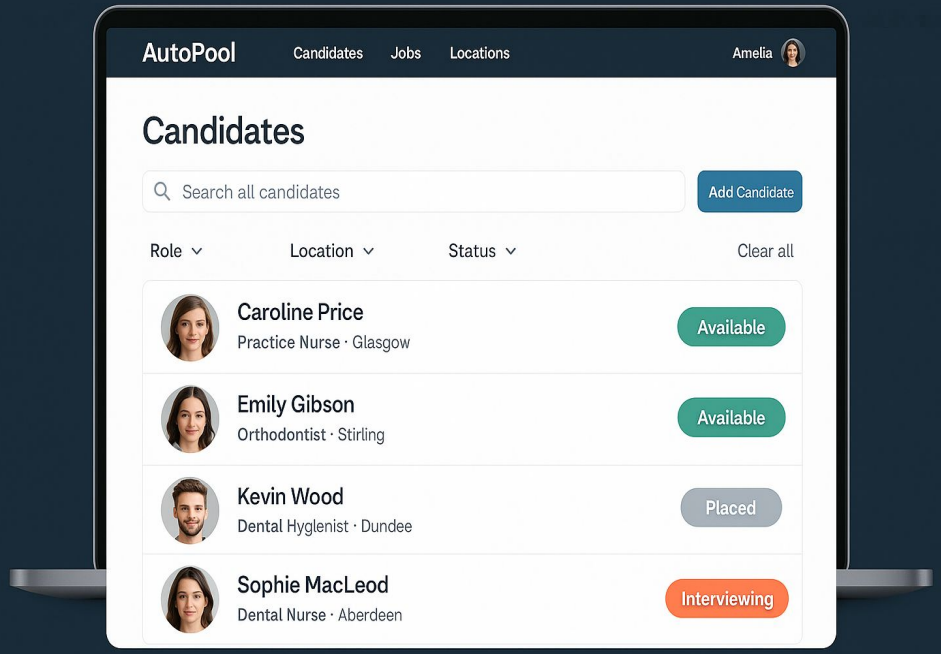
CONSULTANCY

The Problem

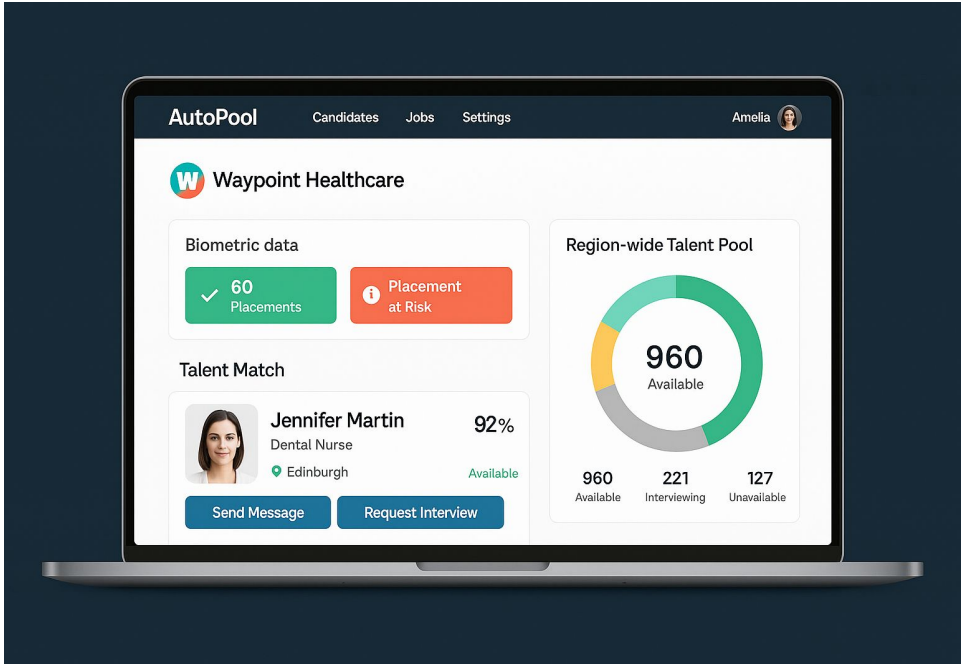
- Candidates apply via job boards (Indeed), websites & Socials.
- Once a role is filled, those candidates are lost.
- Companies keep posting new jobs, paying to re-advertise and attract the same talent over and over again.



The Solution: AutoPool

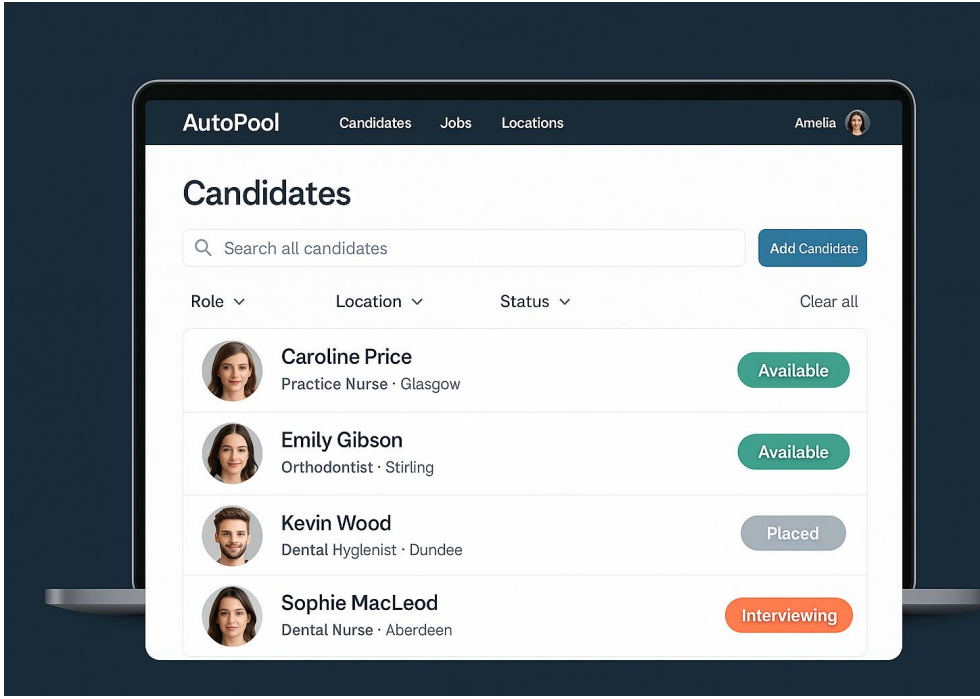
AutoPool captures, stores and ranks every applicant permanently — turning candidates into a reusable asset.

- Your permanent searchable candidate pool
- Automatic candidate ranking
- Reuse across all roles & UK locations
- Move to near zero cost internal hiring



How AutoPool Works

1. You post jobs and candidates apply as normal - No change to process.
2. CVs are automatically captured from jobs.
3. Postcode-based distance matching.
4. Automatic candidate ranking.
5. Users search, filter and see only best-fit candidates.
6. One-click contact and interview requests.
7. The pool auto builds with every job - You OWN the data. Always.



AutoPool - Pricing

It’s Built first. Tailored to your needs.

You see it working first.

Then you decide...

- From £2,999 one-off consultancy/set up.
- From £399 per month.
- Unlimited users.
- No long term contract.
- You own the data. Always.
- Ongoing support & enhancements.
- Free bulk candidate upload from existing ATS database

Why AutoPool (vs ATS & Indeed)

Feature	Indeed	ATS	AutoPool
